

Lloydminster!

Welcome to
the program.

In cooperation with the City of Lloydminster, Alberta Recycling is pleased to welcome the people of "Lloyd" to its electronics recycling program. Now, folks on both the Alberta and Saskatchewan side of town have a way to recycle their old electronics. A municipal collection site is ready to accept your end-of-life electronics at no charge so they can be recycled in an effective, safe, secure and environmentally friendly way.

Visit www.albertarecycling.ca, or call 1-888-999-8762 (toll free) to find the collection site nearest you.

For more information on how the electronics recycling program will work in Lloydminster, call 780-875-6184.

How Alberta's electronics recycling program works.

As part of Alberta's electronics recycling program, retailers in Lloydminster will begin collecting an environmental fee on the sale of certain new electronics.

Environmental fees

Televisions

18-inch screen and smaller	\$15
19-inch to 29-inch screen	\$25
30-inch to 45-inch screen	\$30
46-inch and larger screen	\$45

Computer Equipment

Computer monitors (LCD and CRT)	\$12
CPUs and servers (also covers recycling of keyboard, mouse, cables and speakers)	\$10
Printer/printer combinations	\$8
Laptop and notebook computers	\$5

Visit www.albertarecycling.ca for more information about product definitions.
